Field Samples Transport Service

www.agroresearchservices.com

Our truck in Europe for you

Our Headquarter is located in Spain and also with presence in Germany.

Drivers with national and international experience in “temperature controlled shipments” since 20 years, and since 2006 experience in GLP/GEP field samples transportation.

Only driving with new lorries, at the most 2 years old. Telematik system included (we know where our lorries are / what is going inside / alarm system for temperature and door openings).

24 hours emergency service.

Lorries with 'european assistance service'

For example...

7,49 t · loading capacity 1380 kg – 9 pallets
· allowed to drive on Sunday/Bank Holiday!
· lifting platform

12 t · loading capacity 4000 kg – 12 pallets
· lifting platform

(bigger on demand)

...easy to reach and to load at every station

Experienced on to prepare tour plans in advance,
also we know how important is the communication
between driver and station.
